The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

It does not identify the city and either state or foreign country of residence of the inventor. The residence information may be provided on a supplemental oath or declaration.

The reissue oath/declaration filed with this application is defective because the statement that all errors that are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant fails to address changes presented in the preliminary amendment of May 05, 2005. See 37 CFR 1.175 and MPEP § 1414.

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The present reissue declaration recites the specific corrective action taken in the reissue application, but fails to specifically identify the error relied upon to support the reissue application. Applicant should include a statement to the effect that the error was including, in whatever claims such language resides, the position of apertures through the bottom portion of the tubular elements and the requirement of longitudinally extending lands and crests.

Claims 1-10 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
